

Safe & Clean

Classrooms

Module 5: Hand Hygiene

Version 2.0 (March 2026)

Our Learning

Goals

- 💧 Proper **hand hygiene**
- 💧 Good **handwashing** practices
- 💧 What do we do when water or soap are not accessible?

Let's get started!

Topic 1 Hand Hygiene

Hand Hygiene

“

Hand hygiene is how we clean our hands to remove dirt, germs, and other contaminants.

”

Why is hand hygiene very important?

Why is hand hygiene important?

Stops germs and sickness

Makes our spaces safe

Helps every Filipino stay healthy!

When do we wash our hands and how do we do it?

Topic 2

Good Handwashing Practices

How often should we wash our hands?

WHEN should we be washing our hands?

Whenever reasonably possible!
But especially when...

Cough, sneeze or
blow our nose

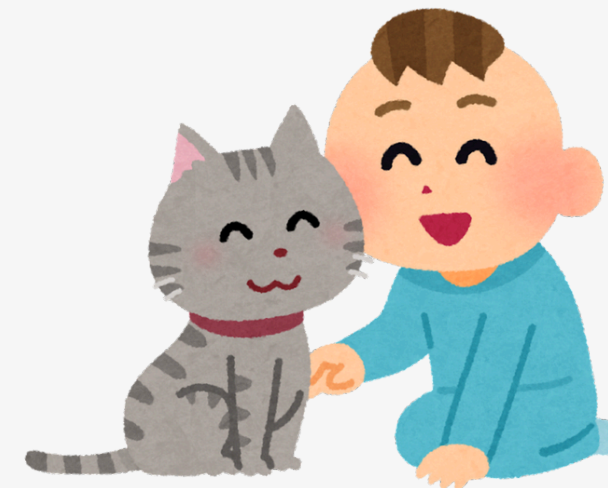

After using the
bathroom

After playing
outside

Before eating

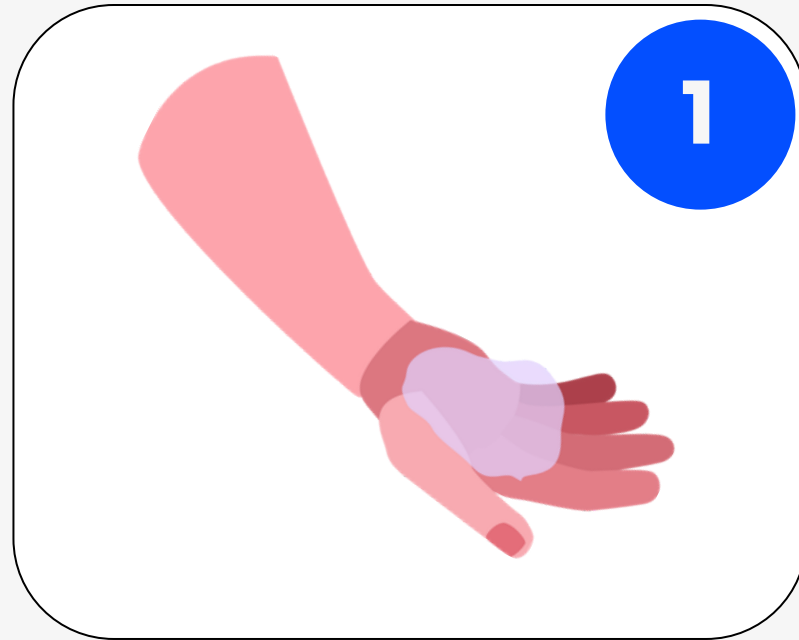

After touching
animals or their
environments

And when your
hands look dirty

How to wash your hands!

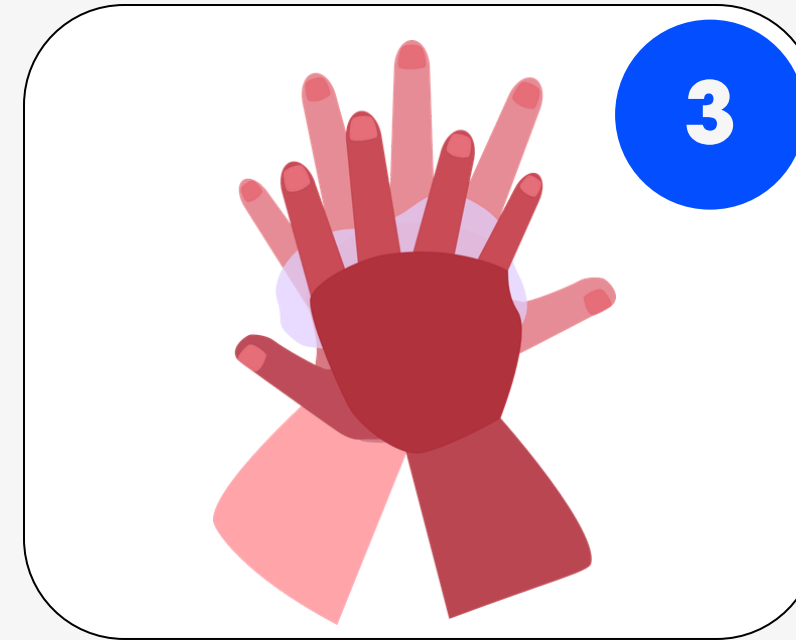

Hand RUB Method

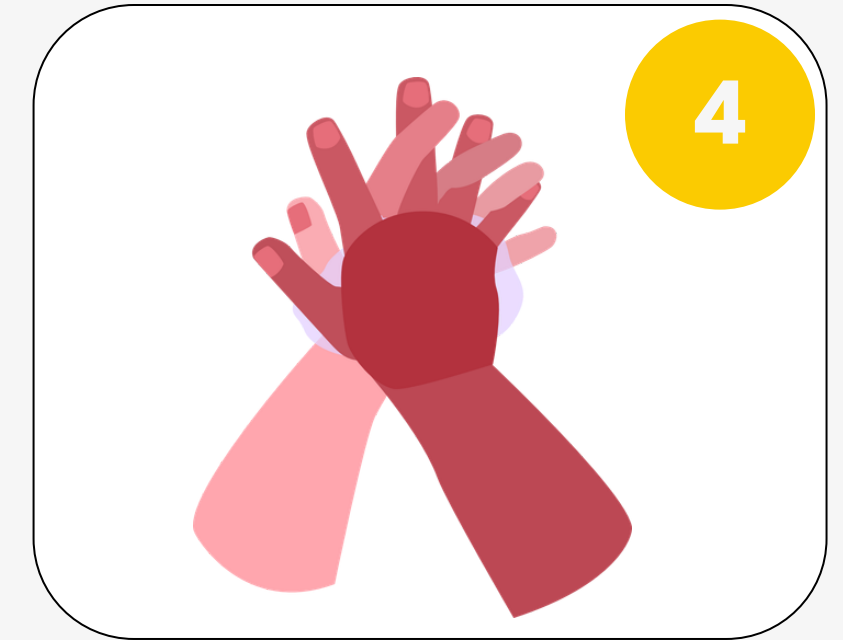

Add soap to your hand

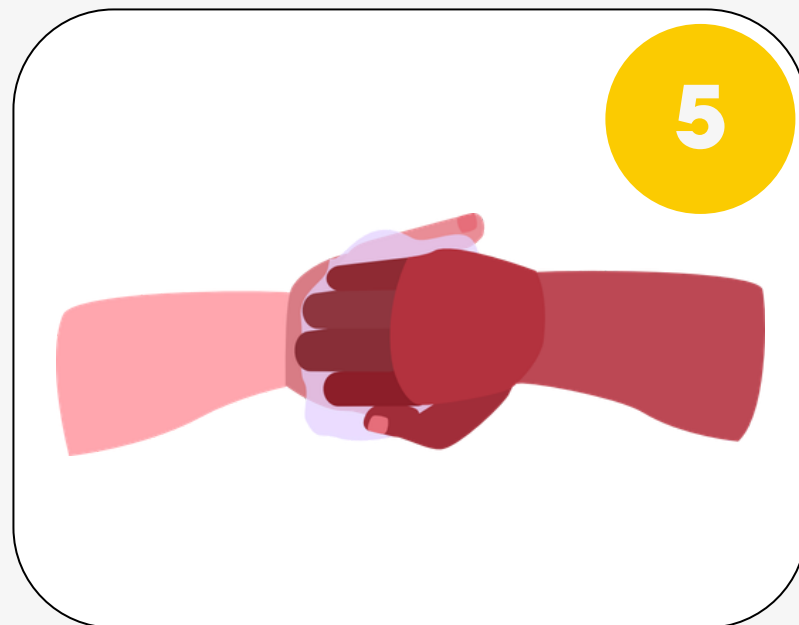

Rub your palms together

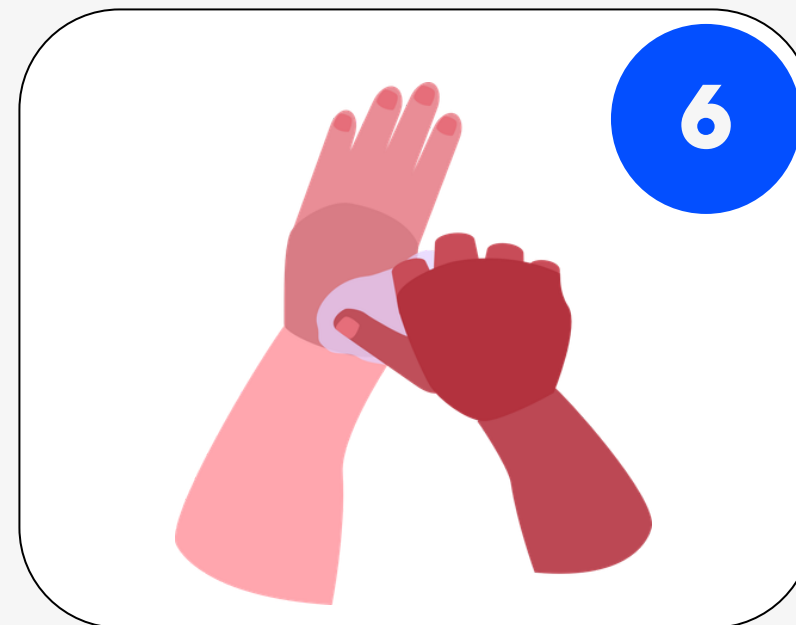

Clean the back of both hands

Interlace your fingers to
clean in between them

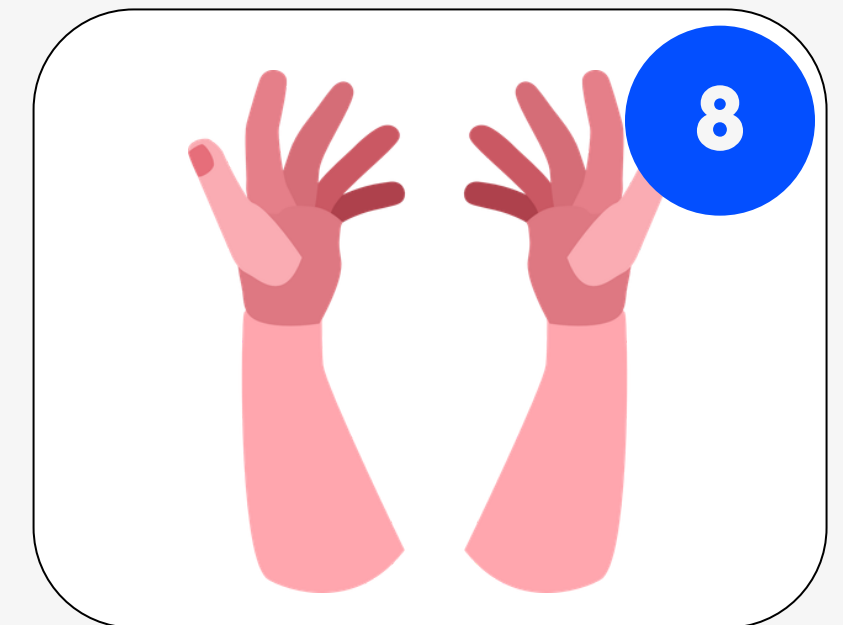

Don't forget to scrub the
back of your fingers

Clean both your thumbs gently

Wash your palms one last time
and rinse them with water

Dry your hands and now
we're done!

What should we do in emergencies?

Topic 3

Handwashing Without Soap and Water

Alcohol-based Hand Sanitizers

Benefits include:

- + portable
- + easy to use
- + especially useful where access to clean water is limited

minimum alcohol content
for alcohol in sanitizers used when
soap and water are not available

60%

When soap and water are not
available, you can use
alcohol-based hand sanitizers

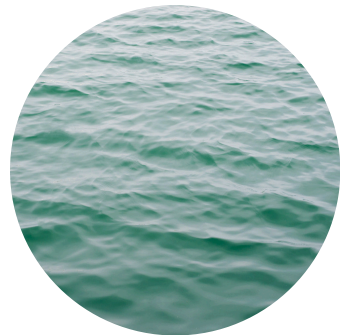

More ways to wash your hands

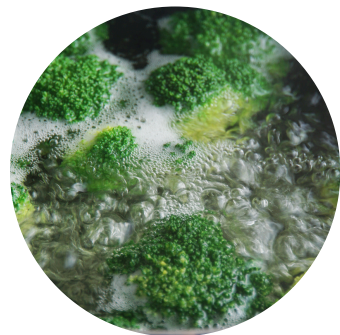

No access to water

Drained rice water

**Clean river or
seawater**

**Water from
boiled vegetables**

No access to soap or sanitizer

**Coffee
grounds**

**Coconut
husks**

Sand

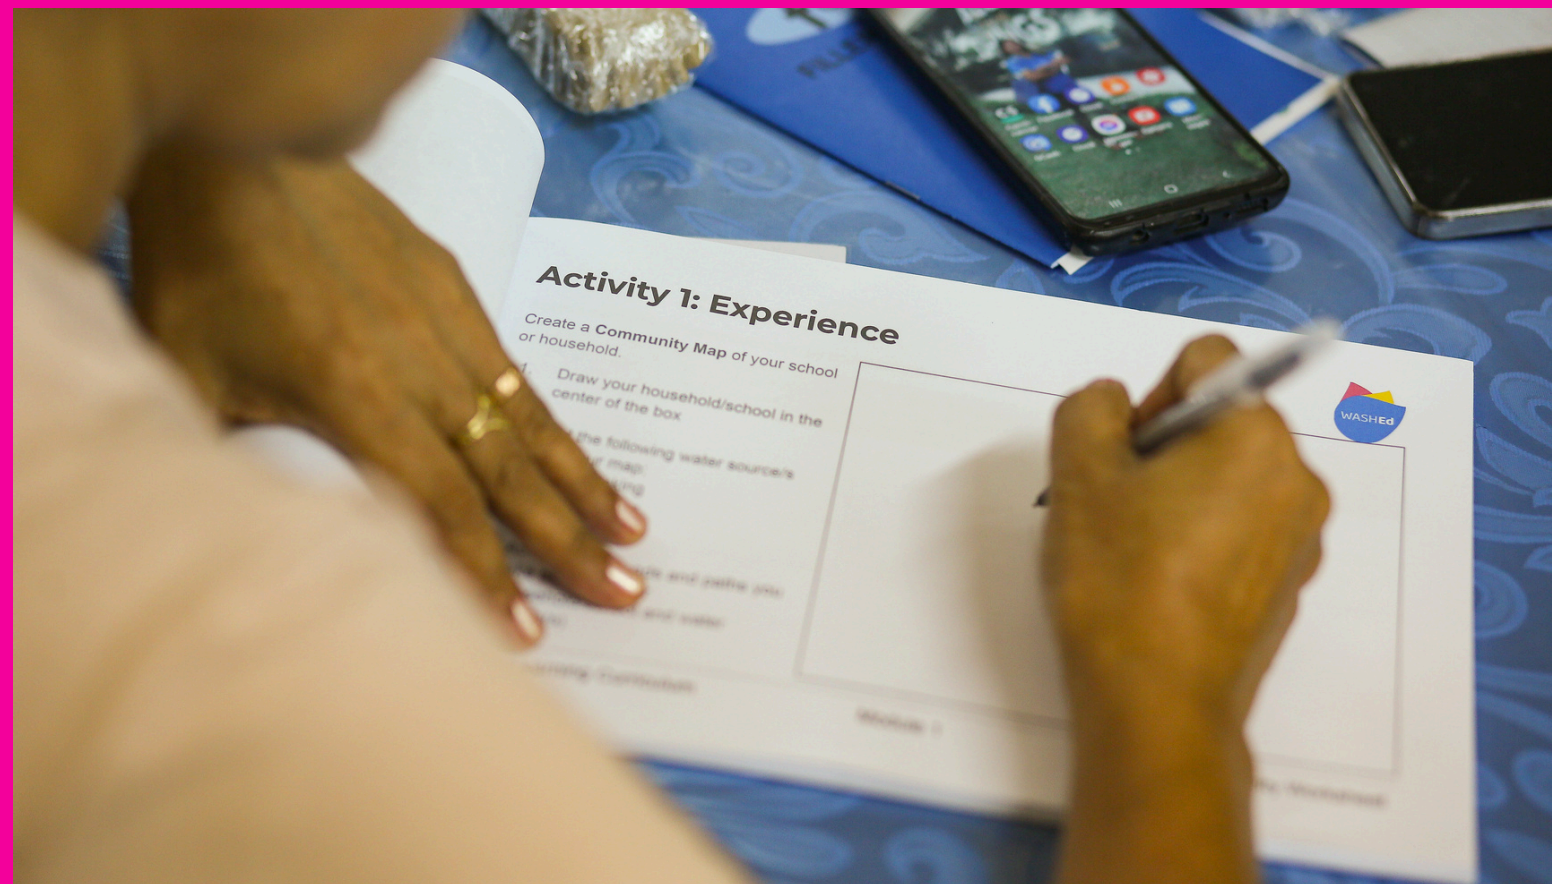

Ashes

Activities

for Module 5

- Classroom activities are designed using the **E-SPOT Framework** to engage Active Learning
- **Think-Pair-Share** approach is recommended for all activities

Activity 1: Experience

Activity 2: Share

Activity 3: Process & Observe

Activity 4: Try

Digital files for the classroom activities will be available from the WASH-Ed Learning Portal

Activity 1: Experience

Create a general **Community Map** of your school.

1. Draw your school in the center of the box
2. Add the following items onto your map:
 - Handwashing facilities
 - Soap
 - Sanitiser gel / alcohol gel
3. Reflect on the accessibility of these handwashing stations in terms of:
 - i) location, ii) number of facilities available for student populations, and
 - iii) if soap is included.

Click to add text

Activity 2: Share

Let us watch the UNICEF video “*How to wash your hands*”:

<https://www.youtube.com/watch?v=uTkYMDdbNUE>

In your **pair** or **group**:

1. Demonstrate your hand washing motions with each other.
Provide feedback
2. Discuss if proper handwashing is adopted by your classmates and colleagues
3. Share about how you learnt to wash your hands
4. **Optional:** Create some novel and engaging digital content promoting good hand hygiene

Note: No worksheet annotations are needed for this activity

Activity 3: Process & Observe

- 1** CAN THIS BE IMPROVED?
WHY / WHY NOT?
- 2** WHAT ARE THE BARRIERS
TO SOLVING THIS ISSUE?
- 3** HOW MIGHT WE SOLVE
THE SITUATION?

*Are there
enough
handwashing
facilities at the
school?*

*Do you observe
students
washing their
hands at key
times?*

*Is soap readily
available?*

Activity 4: Try

Create **one (1) school initiative** you can introduce **TOMORROW**, to help promote **hand hygiene** at schools (e.g. student competition to create handwashing posters).

**Describe your
school initiative**

**WHY might this
initiative be effective?**

**WHAT resources do
you need to get
started?**
